

## CARRANZA AGAIN DEMANDS AMERICAN TROOPS GET OUT OF MEXICO

### SAYS WITHDRAWAL WOULD BE PROOF WAR NOT WANTED

Mexican Ambassador in Washington Presents Note Asking for Explanation

GAVIRA SAYS BORDER TO BE AMPLY PROTECTED  
Carranza Commander Declares When U. S. Troops Leave Places Will Be Taken

(Associated Press by Federal Wireless)  
WASHINGTON, D. C., May 31.—Dr. Eliseo Arredondo, the Mexican ambassador to the United States, today presented to the state department a note which constitutes a reiteration of the Carranza demand that the United States forces get out of Mexico.  
The note requests definite explanation from the American government of the presence of American troops in Mexico and renews the request made weeks ago that they be withdrawn. This note will be made public later.  
It argues that if the soldiers are withdrawn, strong proof will be furnished that the United States does not desire war with Mexico. The note also says that the raids by Villa bandits made upon Glenn Springs and Boquillas would have been prevented had the troops now in Mexico patrolled the border on the American side.

### ANOTHER CONFERENCE: PERSHING AND GAVIRA

(Associated Press by Federal Wireless)  
EL PASO, Texas, May 31.—Gen. Pershing, relative to the disposition of troops along the border.

### MEXICAN GENERAL PLEDGES SAFETY ALONG THE BORDER

EL PASO, Texas.—According to a statement issued by Gen. Gabriel G. Carranza, commander of the Carranza troops in Northern Chihuahua, a great troop movement ordered by Gen. Obregon, Mexican minister of war, to protect the American border against bandit raids and to take over the work of Gen. Pershing's American army in fighting bandits in western Chihuahua is now under way.  
Declining to say how many thousand men were to be used, G. Carranza said it was Obregon's intention to distribute troops so thickly through the bandit zone that the bandits could not exist there. He said that the 10,000 men mentioned in press reports as ordered into the field by Obregon was but a fraction of the real number.  
"Our forces have already occupied San Antonio," he said, "San Antonio is almost due west of Chihuahua City and has been, until the last few days, Gen. Pershing's advanced supply base.  
Extending the Lines.  
"We will extend our lines northward through the territory from which the American troops are withdrawing, as far as Namiqualpa," Gen. Carranza continued. "It is our understanding that Gen. Pershing's troops will make their headquarters at Colonia Dublin, 100 miles northwest of Namiqualpa, his withdrawal to that place being effected as rapidly as Mexican government troops can arrive to occupy the territory thus evacuated.  
"Gen. Jacinto Trevino today left Torreon at the head of a very heavy command of troops. He is moving them toward your border to protect it against brigandage. Gen. Trevino, who is commander of the Division of the Northeast, will assume charge in Chihuahua, under orders of the minister of war, though Chihuahua is outside Gen. Trevino's appointed zone of command."  
Discounts Villa Story.  
Referring to the reports from Gen. Pershing's headquarters that Villa was recruiting men at the state of Durango for another raid upon American territory, Gen. Carranza said:  
"Our official reports, which are very complete, prove that rumor utterly unfounded. Gen. Villa is not recruiting 2000 men in the state of Durango. To my mind this is the chatter of the interventionists who are very active in the United States.  
"We have bandits in Mexico whom the government is doing its best to eliminate. In the United States you have also bandits, but they parade the lobbies of your hotels, clad in Palm Beach suits.  
"As for Villa—he is the Cid of Mexico. You remember how the Spaniards, fighting the Moors centuries ago, to frighten the enemy rode into battle with a figure of the Cid strapped on a horse to lead them? However, we consider Villa just as

Dr. Eliseo Arredondo

### FOSTER DAVIS CASE MAY NOT BE CONTINUED

Will Go to Supreme Court Only Upon Instructions From Department of Justice

No appeal from Judge W. W. Morrow's decision, exonerating Foster L. Davis from charges of misappropriating the funds of the office of the federal court clerk, will be taken to the supreme court of the United States unless the local district attorney's office is so instructed.  
This announcement was made today by U. S. Attorney S. C. Huber, who stated that all he will do in the matter for the present will be to inform the department of justice in Washington, D. C., of the outcome of the case, and forward to it a copy of Judge Morrow's decision.  
"Then," says Huber, "if the department of justice desires to determine the law in the case; that is, find out if Judge Morrow's ruling is correct, it will instruct my office to take the matter into the supreme court on a writ of error."  
No further action with regard to the Davis case has been taken in federal court either by the government or by Davis' attorneys.

### PIONEER STOCK WILL PAY DOLLAR DIVIDEND NEXT

Pioneer Mill today at the meeting of the exchange made an announcement of the result of its directors' meeting held Monday when a declaration of an extra dividend of 60 cents per share was determined upon. The extra dividend is payable July 1, at the same time as a regular dividend of 40 cents making the total disbursements at that time to be \$1 per share.  
Last year Pioneer Mill paid dividends monthly of 20 cents per share and two dividends of 60 cents were paid. This year dividends were increased to 30 and then to 40 cents and this is the second special dividend of 60 cents to be declared. The disbursement July 1 will amount to \$200,000.  
Dead as the Cid, and we are not frightened.  
Patrol on Border Now Reorganized.  
SAN ANTONIO, Texas.—The plan for the reorganization of the border patrol has been completed. Orders were issued for seven companies of coast artillery, now here, to move at once to Del Rio, whence they will be distributed westward along the Southern Pacific railroad, guarding bridges and garrisoning Langtry and Sanderston.  
"Camp Wilson" is the name given to the militia camp near Fort Sam Houston.  
Four companies of the Texas militia were sworn in, and it is expected all will be taken into the regular army establishment. Gen. Funston announced that their assignment to border stations would be made soon.  
5000 Soldiers Stationed at Douglas.  
DOUGLAS, Ariz.—Nearly 5000 soldiers, comprising two full regiments and parts of five others, are stationed here for border duty, following the arrival of two battalions of the 14th Infantry.  
President Wilson nominated J. Warren Davis, present United States attorney at Trenton, N. J., to be United States judge in the recently created New Jersey district.

### PEACE LEAGUE'S PLAN PRACTICAL, JURIST CERTAIN

Judge W. W. Morrow, One of Organizers of Movement, Confident of Strength

MEETING WAS HELD IN WASHINGTON LAST WEEK

Consul Woonhan of China, Invited to Be Present, Also Backs Idea

Two strong advocates of the League to Enforce Peace are in Honolulu—one a resident and an official representative of a foreign power, the other a visitor and a distinguished American jurist.  
Consul Tze-ang Woonhan of the Republic of China, one of the few Hungarians invited to the meeting of this league last week, declares in a letter of regretful declaration that he believes in the method proposed to end war.  
Judge W. W. Morrow of the circuit court of appeals, ninth circuit, who came here from San Francisco to handle the Foster L. Davis case, is one of the original organizers of the league, and since arriving here has received a letter from Ex-President Taft, who is head of the league, urging him to attend the Washington meeting. This, of course, he could not do.  
Last week's meeting was called the "first annual assembly" of the league and was held in the New Willard Hotel, Washington, D. C., on May 20 and 21. It attracted a long list of distinguished speakers.  
Declining the invitation to be present, Consul Woonhan wrote:  
"I regret very much that I shall be unable to attend the meeting. However, in view of the excellent prospect brought about by the league for the world's peace and permanent harmony in the future, sure to be attained by the method proposed, I shall be thankful to maintain interest in the movement."  
Judge Morrow's Views.  
Judge Morrow declared enthusiastically this morning that he firmly believes in the practicability of this movement.  
"It has something of the uniform and authority of the policeman behind his plans," he commented.  
The plan, briefly, is this:  
Questions which cannot be settled through negotiations or by treaty provisions shall be submitted to a council of conciliation—an international tribunal. The signatory powers are to use their forces, economic and military, against any one of their number which goes to war without submitting such questions to the tribunal. All questions are to be given full and deliberate consideration and recommendations made.  
The value of this plan, as Judge Morrow suggests, is that it enforces deliberate judgment by armed force is necessary.  
"Perhaps Hawaii has not realized how this plan has won its way and is gaining favor," said the judge this morning. "I firmly believe it is a practical plan and that it may put an end to such conflicts as this of Europe now."  
Judge Morrow is also a member of the American Conciliation League and takes an interest as well in other peace movements, but he regards this of the league as the most likely to win international respect and cooperation.

The jurist and his wife will be in Hawaii until the latter part of June. They will go to the Volcano on June 6, returning shortly after.  
Local attorneys and members of the bench have expressed the hope that Judge Morrow would consent to sit in some federal court cases in order that they might observe his procedure and conduct of the cases and get pointers of benefit, but he said today that he doubts if he will do so.  
"Why," he said with a laugh, "I am still learning myself," and went on to tell of how he went to Phoenix, Ariz., once and got a few pointers himself.

### COL. HERO WILL BE LATE IN ARRIVING

Through war department orders received today at army headquarters, announcement is made that Lieut.-col. Andrew Hero, Jr., who has been on duty of the Coast Artillery Corps at Fort Terry, New York, has been given a leave of absence and will not arrive here to relieve Lieut.-col. Frank W. Coo at Fort Kamehameha as soon as he was expected.  
Col. Hero will sail from San Francisco on the October transport to take up duties at the coast defense headquarters which are now at Fort Kamehameha. Col. Coo goes from here to Fort Wadsworth, New York.  
Germany has tripled her rifle manufacturing capacity since the war started.  
Exports of merchandise from the Port of New York for the week ended May 6 amounted to \$41,052,569.

### WILSON'S FRIEND SEES MISTAKES OF PRESIDENT

H. H. Childer Criticizes Gently and Predicts Relection of Chief Executive

AGREES ON POLICIES NOT IN APPOINTMENTS

Errors Came From Poor Advice and Improper Recommendations Made to Him

That President Wilson will have no opposition for re-election for the presidency and that he will be retained in office by the voters of the country are opinions held by H. H. Childer, who was personal representative for Woodrow Wilson in the 1912 campaign, has been magazine and newspaper writer and now is a special agent for the land office of the U. S. government. He admitted candidly that Wilson had made mistakes, but attributed them to poor advice and improper recommendations. The opinion and criticism were voiced by Childer in an interview he gave the Star-Bulletin before he sailed today and in which he talked on Honolulu and the beauties and attractions of Hawaii, as well as of affairs national and political.  
Enthusiastic for Honolulu.  
"The attractions here are so new, so varied and so acutely interesting that visitors may come the year around, stay as long as they wish and come back as often as they can without running out of something new to see, something else to do," he said.  
Childer has been all over the United States; he has seen much of the Orient and Europe. Praise from him is not idle chatter. In a free and straightforward manner he voluntarily unbound on Hawaii. After he had finished, few nice things had been left unsaid.  
"It is my first visit," he declared, "but I like the place so well that I will be back as soon as circumstances permit."  
He says the hospitality of the residents here is fine beyond description. Childer was accompanied here by his uncle, E. D. Beard of California, who was equally charmed with Honolulu. Mr. Childer's home is in New York but he expects to move to the coast.  
Personal Friend of President.  
Wilson's personal friend of President Wilson's Childer went south before the Baltimore convention to secure

### BOND ISSUE FOR GOOD ROADS LAID BEFORE AD CLUB

Members of the Ad Club who met at luncheon this noon at the Alexander Young Hotel were united on the fact that they want good roads, but there were many different opinions on how to get them discussed, after Mayor John C. Lane had advanced his ideas on a bond issue.

Mayor Lane in his talk favored a bond issue of \$750,000. Of this, \$500,000 to go for the improvements of roads and \$250,000 for a new city hall. In his talk he urged the necessity of good road building as an asset. The tourists who come here ask first for good roads, he declared. He put the matter up to the members of the Ad Club, asking if the people of Honolulu are ready for a bond issue.  
"Carnival Week brings hundreds of tourists here and they enjoy the islands, all but the good roads. If we want to bring them back we must have proper road conditions. The people of the city will get an idea of the way in which the money is expended, but the time is short for action to start. It will take two months to call an election and the closing of registration will take up considerable time. It will require until next year before real action can be taken. Do the people of Honolulu want to wait for two years?"  
After Mayor Lane had completed his review of the situation, Supervisor Albert Horner was called upon and in a few words stated the need for the bond issue.  
Raymond C. Brown stated that he is a strong supporter of a bond issue if handled properly.  
Roderick O. Matheson, editor of the Advertiser, urged the members to adopt for a permanent system stating that a foundation should first be made, then when the roads are built there will be no necessity of much expenditure.  
Ed Towse asked that the citizens of Honolulu first learn just how the bond money would be spent before taking direct action.  
Before the luncheon the Kamehameha Glee Club entertained with a number of songs.

### NEW YORK STOCK MARKET TODAY

Following are the closing prices of stocks on the New York market today, sent by the Associated Press over the Federal Wireless:

	Today	Monday
Alaska Gold	23 1/8	22 1/2
American Smelter	97 1/2	98 1/2
American Sugar Rfg.	112	112

### AFTER JOHN D., HE STONED HOME OF A VANDERBILT

Yonkers Man Tells Rambling Story of Plan to Kill Oil Magnate

(Associated Press by Federal Wireless)  
NEW YORK, N. Y., May 31.—Sacharow Fowdres, a wood-carver of Yonkers, New York, was arrested by the police today after he had stoned and broken several windows in the mansion of W. K. Vanderbilt. After his arrest his excited statements showed that he was under the impression he was stoning the home of John D. Rockefeller, whom he held responsible for the sufferings of the poor.  
He said he had an accomplice who planned to shoot Rockefeller when the oil king came to the door to find out about the window-breaking, but the police could find no signs of this accomplice.

### RIGGS NATIONAL BANK WINS TWO DISPUTED POINTS

(Associated Press by Federal Wireless)  
The supreme court of the District of Columbia today handed down a decision holding that U. S. Comptroller Williams may not retain the \$5000 fine imposed upon the Riggs National Bank by the lower court and may not impose any further penalties upon the banking institution. This disposes of the undecided points in the suit the bank brought against Secretary of the Treasury McAdoo and Comptroller Williams, who were charged by it with persecution and conspiracy to destroy the bank through onerous orders and exactions.

### EARTHQUAKES IN JAPAN FRIGHTEN MANY CITIZENS

(Special Cable to Nippon Jiji)  
TOKIO, Japan, May 31.—Six earthquakes yesterday were felt throughout Japan yesterday and the city of Shizuoka, at the foot of Fujiyama, was damaged by falling walls and wrecked buildings. There was much confusion when the first shock was felt, and when the second one came the buildings in one section of the city were crushed like egg shells.  
No loss of life is yet reported, but it is feared that a number of the citizens have been buried in the debris. Citizens of the city are fleeing for their lives as they fear that this is the forerunner of an eruption of Fujiyama, the highest mountain in Japan and a volcano that has been extinct for more than 1000 years.  
Five hundred section hands of the Lackawanna railroad in the Glens Falls, N. Y., section, went on strike today.

### PREMIER ASQUITH SKEPTICAL OF PEACE ON BASIS GERMANY HAS SO FAR SEEM TO FAVOR

SAYS CHANCELLOR VON BETHMANN-HOLLWEG IN A RECENT SPEECH SHOWED NOTHING TO SAFEGUARD INTERESTS OF ALLIES—GERMANS SLOWLY TAKING TRENCHES AT VERDUN—AUSTRIANS PROGRESS

(Associated Press Service by Federal Wireless)  
LONDON, Eng., May 31.—That the British government looks with a skeptical eye upon the references made in Berlin to Germany's readiness to discuss peace was shown today when the British premier, Mr. Asquith, made a statement in Parliament commenting upon Dr. von Bethmann-Hollweg's recent address to the Reichstag.  
In this address the chancellor in April said that Germany had twice offered the opportunity for peace negotiations and last September 9 had made definite statement regarding peace discussions.  
Premier Asquith's statement today contained the declaration that there is nothing in the German chancellor's statement which indicates that Germany is prepared to consider terms of peace which will safeguard the interests of the Allies and the future peace of Europe.

### British Casualties For May Heavy

LONDON, Eng., May 31.—Nearly 30,000 soldiers of the British armies were killed, wounded, taken prisoner or lost during May, according to official announcement today. The announcement says that during this month in all fields the British casualties were 1767 officers and 28,470 men.

### GREEK SOIL WAS INVADDED TO STOP ALLIES' ATTACK

Berlin Official Statement Thus Justifies Move By German and Bulgarian Troops

Invasion by Greece of German and Bulgarian troops a few days ago was caused by the obvious intention of the Allies to make an offensive move, according to German official cable ad vices late yesterday.  
This and other statements from the German side are contained in the following official cablegrams:  
GERMAN HEADQUARTERS, May 30.—Our fliers with visible success yesterday evening attacked an enemy's destroyer squadron off Ostend. A British biplane, after an air combat, was shot down near Saint Eloi and destroyed by artillery fire. East front, south of Lipsk, German detachments crossed Shtshara and destroyed a Russian block-house.  
In Balkan sector, German and Bulgarian forces in order to prevent surprises obviously planned by the Entente troops, occupied important Rupel gorge on Struma. Our superiority forced the withdrawal of the feeble Greek posts. The Greek sovereignty was scrupulously respected.  
Heavy Fighting On the Meuse.  
GERMAN HEADQUARTERS, May 30.—Spirited artillery duels took place between Caral Labasse and Arras. Tens and its suburbs were again shell ed. Near Sencher and southeast of Tuhure, feeble enemy's attacks failed. Activity increased in the district from Height 304 until Meuse. South of Raven and Cumieres forest German troops conquered French positions on whole extension between southern summit of Mort Homme and village of Cumieres. We captured 35 unwounded officers, among whom were seven staff officers, and also 1320 men. French counter attacks against the village of Cumieres were easily repulsed. East of Meuse local successes completed recently, conquered line of Thimont Fort. On both sides artillery fire today temporarily reached a climax.  
Today's Report.  
GERMAN HEADQUARTERS, May 31.—West front: Enemy torpedo boats which approached the coast today were driven back by artillery fire. Lively fire between the Canal La Basse and Arras is going on. German patrols were successful in enterprises near Neuve Chapelle and north-eastward. Thirty-eight British, among whom was one officer, were prisoners. One machine gun was taken.  
Left of Meuse: Bushes and hedges south of village Culeres were cleaned of enemy. Three officers, 88 men were captured. During the attack on May 29 we captured in Caurettes wood one naval gun, 18 machine guns, a quantity of mine throwers and plenty of other material.  
Artillery activities very spirited on both banks of the Meuse.  
On east and Balkan fronts no event of special importance occurred today.  
A strike of 40,000 clothing workers in Chicago has been ordered by union leaders.  
Potash in large quantities is reported in the Salsure Marsh in the Salt Lake Desert by the United States

### French Admit Loss

(Associated Press by Federal Wireless)  
PARIS, France, May 31.—The French after hard fighting have evacuated the first-line trench near Caurettes wood, south of Cumieres.  
Everywhere except near this Caurettes position the German infantry attacks have been repulsed and their offensive broken down.

### FUKIEN IS INDEPENDENT AND JOINS NEIGHBORS

(Special Cable to Nippon Jiji)  
TOKIO, Japan, May 31.—Fukien province has declared independence. Although there has been no fighting in this section the revolutionists have carried on a campaign of education and as a result the governor of the province announced that Fukien would join the neighboring provinces against Yuan Shih-Kai.  
Fukien adjoins Kwantung province on the east, and is noted for the tea and sugar industries which have been promoted by foreigners in this section. The Fukien black tea district is known throughout the world.

### HUNAN ANNOUNCES PROVINCE INDEPENDENT

(Special Cable to Nippon Jiji)  
TOKIO, Japan, May 31.—After fighting for a number of months in Chang Sha the revolutionists have won a signal victory and Hunan has announced independence. This province has been the scene of many bloody battles, and at first the monarchists were successful, but additional troops brought from Kweichow gave the revolutionary forces added strength to make an attack on the garrison, and yesterday the governor of the province announced that the troops of Yuan Shih-Kai would not oppose the revolutionary troops in this province.  
All Dinar, Imvan of Darfur, a country of southwestern Egypt with several million inhabitants, is reported to have proclaimed a holy war against
